iso disc image file. Windows 8.1 is the latest version of Windows, Microsoft's personal and business operating system. It is available as both a 32-bit and a 64-bit operating system. If you have a genuine Windows 8.1 disc, use that. Otherwise, you can make your own disc image file. The steps in this section can be used to upgrade Windows 8, Windows 8.1, Windows Server 2012, Windows Server 2012 R2, or Windows RT 8.1, to Windows 10. You need the new installation media for Windows 10, but it does not need to be an official upgrade disc. Windows 10 is also available as a DVD image file. This article explains how to make an ISO disc image file. Prepare a new or existing hard drive for Windows 10 Click this link to download the disc image file for Windows 10. To make the image file, you will need to burn it to a CD or DVD, or to copy it to a USB flash drive. You can use any blank disc with a CD or DVD drive, or any USB flash drive, or you can use a DVD burner on your computer to

burn the disc image. Open the disc image file If you are using the official Windows 10 disc, you do not need to do anything special to open the disc image. Windows 10 will start from the disc. If you are using a disc that you created yourself, you will need to install Windows 10 by using the media you created. To open the disc image file, do the following: Click the disc image. On your computer's operating system, you can find the disc image file on the same disc that contains Windows 10. For example, the disc image file might be on the disc containing Windows 10. If you are installing Windows 10 on a drive other than the one that contains the disc image file, make sure that you insert the disc image file into your computer's CD or DVD drive. Then, in Windows 10, click . Burn the disc image file You need to burn the disc image file to a CD or DVD. For example, you can use Windows 10 to burn the disc image file. Open Windows 10 by clicking . Click , and then click Burn. Click , and then select the disc image file that you want to burn to a disc. (The disc image file might not be the only one on the disc. 82157476af
